

## RTC WAIVER SERVICE: CAREGIVER PEER-TO-PEER SUPPORT

### **Brief Description:**

Caregiver Peer-to-Peer Support is a service provided to the caregiver of a Waiver participant by a family support partner who assists in describing the program model, including providing information on the roles of individuals involved in the plan of care and specific services that could be included in the Plan of Care (POC); supports the family and/or participant to participate effectively in the Child and Family Team (CFT) meetings and in the POC development and implementation, including providing assistance for transitioning out of waiver services; works with the Care Coordinator, participant and family to develop the plan of care; and, assists in accessing services and removing barriers to care, including coordinating services and community resource linkage and accompanying families to meetings or other community resources.
