Description of Types of Implementation Supports Offered

Consultation and training in school-based care coordination

Description of Types of Methods Used

One on one; groups; use of Power Point, data, and examples

Typical Costs and Duration of Different Types of Services

Some can be conducted via email. Several Indiana counties have accessed our services through the Technical Assistance Center for Systems of Care and Evidence Based Practices for Children and Families.

www.choicesteam.org will take you to their webpage.

Examples of Communities or Programs Worked With

I have presented at several national and local System of Care conferences. My most recent work is within the framework of a Full Purpose Partnership, joining an Indianapolis Public School and Choices, Inc. The collaborative allows service coordination to be done in the school. I work with students, family and staff in a strengths-based manner and provide Positive Behavior Support education and assistance to staff and families. Parent support is a big part of our program.
