Types of Implementation Supports Offered

The primary support I can offer is regarding research, evaluation and fidelity to treatment. I have served as the Research Director and Evaluator for five sites employing a Wraparound model in the state of Massachusetts, starting in 2002. I have coordinated quantitative and qualitative interviewing with families receiving Wraparound services. I am interested in working with sites to help them think about consumer satisfaction and treatment fidelity from a research perspective.

Communities or Programs Worked With / References and Contact Information:

While I am a licensed clinical psychologist, for the past 3+ years I have been employed at the Center for Mental Health Services Research, Department of Psychiatry, University of Massachusetts Medical School as a Research Assistant Professor. I have worked with many public state agencies as well as with programs on research and evaluation of wrap programs.

Please contact me for additional information.
